Range/Site numbers are *required to be inscribed on a discreet part of every monument.* All monuments ***must*** be approved by both the site owner and Historic Congressional Cemetery (HCC) ***before*** installation can be scheduled. For designs that fall outside standard monument or marker styles, we request that a draft be submitted for HCC review ***prior to fabrication.***

Please refer to *HCC Rules and Regulations* for full monument design and installation requirements, contractor requirements, setting fees, and the monument approval process.

All companies listed are recommended for engraving services on existing markers. Engravings must also be approved by the site owner and Historic Congressional Cemetery *before* any work is scheduled.

HCC recommends waiting a full calendar year before installing a marker or monument on a recent burial site to allow the ground sufficient time to settle.

Please reach out to staff@congressionalcemetery.org or (202) 543-0539 with any questions.

* Physical location contains a showroom for viewing products. Please call ahead.
